DIV. OF OIL, GAS & MINING

June 20, 2008

TO: Daron Haddock, John Baza, Priscilla Burton & others

Utah Division of Oil, Gas and Mining

FROM: Citizens Opposing the Alton Coal Mine

RE: Alton Coal Development, LLC/Coal Hollow Mine, C/025/0005

The following is a petition requesting UDOGM to do further studies prior to giving approval for the above referenced permit application.

If you have any questions please contact Bobbi Bryant at [broncobobbi@gmail.com](mailto:broncobobbi@gmail.com) or 435 690-0044

DIV. OF OIL, GAS & MINING

We, the undersigned citizens of the Panguitch/Hatch, UT area, request that the following studies be done prior to providing a permit to the Coal Hollow Mine project.

Thank you.

The Utah Coal Rules are clear that in addition to considering the impacts of coal mining and reclamation to the permit area, the Division must give equal and full treatment to the "adjacent area" – the area outside the permit area where a resource or resources, are or reasonably could be expected to be adversely impacted by the proposed coal mining and reclamation operations per Utah Admin. Rule 645-100-200. Currently the Permit Application wholly fails to consider or often fails to even mention project impacts to the adjacent area in the following sections, though it must do so:

Cultural and Historic resources information, Utah Admin. Rule 634-301-411.140 and environmental descriptions including socio-economics of the adjacent area, Utah Admin Rule 645-301-411.130

As business owners and residents of the Panguitch/Hatch area we are requesting these studies be done prior to approving the permit to mine coal in Alton that was submitted by Coal Hollow Mine, Permit C/025/0005
